CHAPTER MEETING--WEDNESDAY EVENING, 7:30 P.M.

JUNE 24, 1987

This month's outstanding program will be presented by Arnold Petersen, a local talent, Head of Operations at Bedford Aviation. He will speak on Preparations and Painting of Aircraft. He has painted many airplanes and this promises to be a very interesting and informative presentation.

An Optional Work Meeting will be held on June 21st at the Santa Rosa Air Center, to finalize plans for the race. Anyone interested in helping with the plans is welcome to attend.

Volunteers at the race are needed and a special Volunteer Booth will be set up on June 26th beginning at 9:00 a.m. Please report to the booth if you would like to help.

● A LOCAL CHAPTER OF THE EXPERIMENTAL AIRCRAFT ASSOCIATION, INC. ●

## GENERAL MEMBERSHIP MEETING

May 27, 1987

President of Chapter 393, Kay Smith, opened the meeting at 7:40 p.m. There were 37 attending. The minutes as printed in the newsletter were approved, and the treasurer's report was given and approved.

Since the newsletter editor will be gone in June, Keith Martz volunteered to run the press.

Kay reported the White family plans for a perpetual trophy are on hold for now--progress will be reported.

Kay told of a member of Hawaii EAA Chapter Wendell Davenport needed help getting his aircraft out of the shipping container and that Chapter 393 members chipped in and helped him out. WAY TO GO!!!!

A discussion was held regarding uses of the Chapter roster. It was agreed it was not to be used for commercial purposes of any kind. We have had many requests for this from all sorts of people, but routinely turn them all down.

The mini "non-fly-in" at Columbia was set for May 30-June 1. Good camping and picnicking available on the field, as well as good restaurants and motels in town.

June calendar of events is full---see attached calendar elsewhere in newsletter.

June 19th is Mt. Diablo Pilots Association meeting at the Water District Building--EAA and 99's invited also, to meet with Buchanan Airport Master Plan consultants--7:30 p.m.

Airport Day is set for June 21st.

Introductions and a break were followed by a presentation of oxygen requirements for fliers by Dick Hart of Chapter 124. A good discussion developed after Dick's main program and there was lots of very good information on high flying. Thanks, Dick!!

Respectfully submitted,

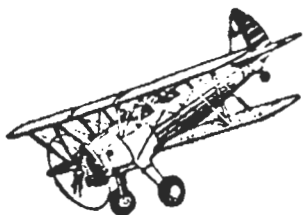

Rich Powell, V.P.

# CALENDAR OF EVENTS

- June 18-21 - No. Calif. Aerobatic Championships, Paso Robles, CA. Drew Detsch, 415+826-7187 or 415+648-6900.
